EXPERIENCE

Notapex

Full-Stack Developer Intern

Remote

May 2026 – Present

- Built a secure role-escalation system (Student → Teacher/Institute) using **JWT refresh tokens** in HttpOnly cookies; developed a responsive admin UI panel for approvals and user management.
- Implemented dynamic pagination with grid/list toggle using DB-level **LIMIT/OFFSET** queries via **Prisma ORM**, reducing API payload size and improving performance.
- Developed a **signed-PDF delivery pipeline** and integrated bilingual (English & Hindi) **i18n** across all legal pages and navigation components.
- Authored DB schema migrations and seed scripts; applied **API rate-limiting** and sanitised payment checkout payloads to harden financial transaction flows.

ITJobXS

Software Development Intern

Remote

Mar 2023 – May 2023

- Designed and developed a fully responsive webpage for the [Desi QnA](#) platform, ensuring seamless cross-device compatibility and polished UX.
- Engineered user verification, authentication flows, and **bot/fake-post detection** logic to maintain content integrity on the platform.
- Integrated **Google reCAPTCHA** as an automated spam-prevention layer against bot-driven abuse and malicious submissions.

PROJECTS

AutoTX – Expense Tracker | Flutter, JavaScript, CSS

github.com/arya170702/AutoTX

- Engineered an **intelligent algorithm** to auto-parse bank SMS messages and extract transaction details in real-time, eliminating manual data entry and providing instant expense visibility.
- Designed a dual-mode interface supporting automated SMS-driven logging and manual entry, with a clean UX and summary views.

Chat Application | Node.js, Express.js, Socket.io, MongoDB

github.com/arya170702/Chat-App

- Built a **real-time chat platform** supporting private rooms, personal messaging, and broadcast channels using Socket.io's event-driven architecture for low-latency interaction.
- Implemented server-side room and session management enabling seamless multi-user communication.

No-Excuses – Fitness App | Flutter, Express.js, MongoDB, Python ML

github.com/Cypher-Dawgs

- Developed a personalised fitness app generating custom meal and exercise plans based on user's daily routine, caloric intake, and activity level.
- Trained and integrated a **Python ML model** to predict work-life balance score, driving the recommendation engine.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C++

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, i18n

Backend: Node.js, Express.js, Prisma ORM, RESTful APIs

Databases: PostgreSQL, MongoDB, SQL

Security & Auth: JWT, HttpOnly Cookies, Google OAuth, reCAPTCHA

Tools: Git, GitHub, VS Code, Agile/PR Workflows

ACHIEVEMENTS & CERTIFICATIONS

Certifications: Microsoft Security, Compliance & Identity Fundamentals (Certified) | Accenture Technology Consulting Virtual Experience Program – Forage

Achievements: 95.87 Percentile – JEE Mains 2020 | Rank 2400 – WBJEE 2020

EDUCATION

Vellore Institute of Technology, Vellore

B.Tech in Computer Science & Engineering; CGPA: 8.02

Vellore, Tamil Nadu

2020 – 2024
